

Name: _____ Class: _____ Date: _____

Lab Design Template:

Title: _____

Problem/Question: _____

Background Information: (What you already know...)

Hypothesis: ("If...Then" Statement)

Materials: (Be sure to list quantity and size necessary)

Procedure: (Step by step instructions that describe the design and implementation of the experiment.)

Data Table:

--

Analysis/Conclusions: (Did you answer your question/ support or disprove your hypothesis? How do you know?)
Note:...This section can include graphic analysis of experimental data...

--
